NEXT-GENERATION DIESEL PERFORMANCE

Powered by the **all-new Cummins X10 engine**, GILLIG Clean Diesel buses combine proven transit capability with the latest generation of Cummins diesel technology. Built on the **proven legacy of the Cummins L9 platform**, the 10-liter X10 delivers the power agencies depend on while incorporating **updated emissions after-treatment systems**, advanced electronic controls, and service-focused design features.

Designed specifically for demanding transit applications, the X10 brings together **integrated diagnostics**, over-the-air software update capability, and a **modern engine architecture** developed to meet today's operating requirements. Combined with GILLIG's proven Low Floor platform, the X10 offers agencies a **familiar diesel solution** that pairs established transit performance with the **latest advancements from Cummins**.

BUILT ON A PROVEN FOUNDATION

Cummins' **trusted heavy-duty architecture** in their next-generation platform.

SMARTER, SIMPLER SERVICE

Features include simple cartridge filters, maintenance monitoring, and **over-the-air software update capability**.

BUILT FOR 2027 & BEYOND

Built for **evolving EPA & CARB** Clean Diesel emissions requirements.
